

References Composting and Waste Treatment

Project	Location	Substrat	Technical Data	Service UTEC	Customer	Year
Composting of organic wastes	Druxberge	organic waste fraction	Extention of the plant capacity	permission planning	Kommunlaserv. Vornkahl GmbH	2016
Treating of sewage sludge	Weyhe	Sewage sludge	Drying and incineration of sewage sludge	concept and permission planning	Laue&Vasicek GmbH	2016
Composting of organic wastes	Celle	organic waste fraction	Evaluation of technical and legal possibilities of treatment of organic wastes at the location of the town Celle	Inventory, consultation, application	Knoop Landwirtschaft GbR	2015
Biogas from organic wastes	Bremen	organic waste fraction from cemeteries	Biog plant for the landfill in Bremen, possibilities of using the waste heat of the cogeneration for drying wood	feasibility study with data research, concepts, economic evaluation, recommendations for action	UBB	2014 2015
Composting of floating refuse	Bremerhaven	Floating refuses	Evaluation of the actual situation and the advancement in the future of floating refuses as protection of the coast	Feasibility study, legal situation, dimensioning of the composting plant	Bremen Ports GmbH & CO KG	2014
Cooling of mud stabilisation	Wiefels	aerobic stable digestate	Mud cooling in order to comply with the allowable temperature limits. Installation of heat exchangers and cooling tower.	concept, assessment of suitable cooling system, supervision	AWZ Wiefels	2011 -2012
Biogas plant for whey	Bremen	whey	Feasibility study with laboratory tests for fermentation of acid whey in order of a major north-German dairy. Combination of wastewater treatment	Determination of biogas potential in batch experiments and in fixed bed; system design; digestate ad gas recovery, cost estimation	Hansewasser Bremen	2010
Organic Waste Fraction and Biogas	LK Mi.-Lü. Nordrhein-Westf.	organic waste fraction	biogas plant for the organic waste fraction in the county of Minden-Lübbecke, biogas treatment, feed into the natural gas pipeline	concept, assessment of suitable techniques, economic evaluation in cooperation with PIPA Münster	AML	2007
Aquaculture	Amt Neuhaus Niedersachsen	wastewater	wastewater treatment for a sturgeon aquaculture	draft and detail planning, installation and optimization	Teldau Fischzucht GmbH & Co KG	2003

References Composting and Waste Treatment

Project	Location	Substrat	Technical Data	Service UTEK	Customer	Year
Agricultural Center Gülze	Kreis Hagenow Mecklbg.-Vorp.	water, wastewater, organic waste, manure	agricultural biogas plant, aquaculture and greenhouses	concept for water supply, waste and wastewater treatment, economic evaluation, permission planning, subsidies	Teldau Agrar GmbH	2003
Compost Plant	Amt Neuhaus Niedersachsen	organic waste	various techniques of composting, treatment times, temperature development	Scientific monitoring during commissioning and operation	Hanseatische Humus GmbH	2002
Slaughterhouse	Bremen	wastewater	water treatment and disinfection of water from car washing	draft planning, economic evaluation	Schlachthof Bremen	2000
Wastewater Shipyard	Bremerhaven	wastewater	disposal of industrial wastewater from 4 shipyard docks	planning of the wastewater system	Lloyd-Werft Bremerhaven	1999
Waste Wood Storage	LK Hameln Nordrhein-Westf.	waste wood fraction	storage system for waste wood fraction and wooden threshold	permission planning and application (BlmSchG)	Envitec GmbH & Co KG, Kalletal	1997
Compost Plant	Amt Neuhaus Niedersachsen	organic waste	compost plant in the county of Lüneburg (15.000 t/a)	application according to § 15 BlmSchG	Hanseatische Humus GmbH	1996
Soil Treatment and Compost Plant	LK Minden Nordrhein-Westf.	waste	soil treatment plant (45.000 t/a), compost plant (80.000 t/a), compost storage	permission planning and application (BlmSchG)	RELUX GmbH	1996
Digester in Wastewater Treatment Plant	Bremervörde Niedersachsen	flotation material	extension of the digester capacity in the wastewater treatment plant	feasibility study with cost estimation and economic evaluation	Stadtwerke Bremervörde	1996
Disposal of Slaughterhouse Waste	Paderborn Nordrhein-Westf.	screenings	highly intensive container compost systems for rumen content and screenings	practical tests in technical scale	Westfleisch	1996

References Composting and Waste Treatment

Project	Location	Substrat	Technical Data	Service UTEC	Customer	Year
Composting Tests	Amt Neuhaus Niedersachsen	screenings	container composting for screenings, implementation into practice	Laboratory tests and in technical scale, designing the components for an industrial scale plant	RELUX GmbH ATV e.V.	1995
Soil Treatment and Compost Plant	Menteroda Thüringen	waste	soil treatment plant (45.000 t/a), compost plant (80.000 t/a)	draft- and permission planning, application according to BImSchG	RELUX GmbH	1995
Disposal of Slaughterhouse Waste	Münster Nordrhein-Westf.	slaughterhouse waste	long-term safe disposal of rumen content and flotation sludge	feasibility study with data research, cost estimation for alternative solutions, economical evaluation	Westfleisch	1995
Revitalisation of Bioethanol Plant	Ahausen Niedersachsen	organic waste	revitalization of biogas plant, wastewater treatment plant and production within a former bioethanol plant	feasibility study with data research, cost estimation for alternative solutions, economic evaluation, permission planning, application according to BImSchG	private	1995
Disposal of Slaughterhouse Waste	Paderborn Nordrhein-Westf.	slaughterhouse waste	feasibility study for the utilization of the solid wastes in the slaughterhouse Paderborn	disposal concept	Westfleisch	1992
Composting	Hamburg	rumen content	optimization of rumen content composting	R&D works within BMFT Verbundvorhaben "Kompostierung"	Stadt Hamburg	1992
Manure Treatment	Bremen	manure	treatment of manure according the demand of elimination of Nitrogen and Phosphorus	R&D technical development, sponsored by Bremen	Land Bremen	1989
Compost Plant	Hamburg	organic waste	compost plant for rumen content in Hamburg -Moorfleet	Concept, permission planning, detail planning, supervision, commissioning	Bio Erden GmbH & Co KG	1988
Manure Storage Systems	Achim Niedersachsen	manure	central manure storage system taking a later biogas plant into account	feasibility study, cost estimation, economical evaluation	Stadt Achim	1988
